

Thanks to Teems Energy. Pro-Ad Sports now a great lighting system. The pictures do not do justice to the significant change in our on floor light. The people from Teems were very diligent and thorough in finding the right system for our budget. The installation went smoothly during our standard work hours with little or no disruption to production.

All the **Best**,
Craig Stephens

Case Study

Ft. Oglethorpe, Georgia

Pro Ad Sports lighting project will help decrease air pollution and environmental damage by the following Amounts each year:

*CO2 Removed (tons)
13.6*

*Acres Of Trees Planted
3.8*

*Gallons Of Gas Saved
1,688.2*

Area	Foot Candle Before	Foot Candle After	Foot Candle Increase
Production Middle	8-10	30-35	22-25
Back Wall Production	5-6	28-32	23-26
Warehouse	2-5	29-34	27-29

Beyond The Hype

Teems Energy
A Division Of
Teems Electric

We have heard it for so long that it is easy to ignore. But beyond the hype it is true. Choosing to ignore energy efficiency is like leaving a water hose running at full blast in your yard. I don't know of anyone who would do that. Yes, we notice rising cost of energy, complain about it and later accept it. What if I told you that you could have better lighting at a fraction on the cost you are paying now? That's right, you are paying for energy efficient lighting weather you have it or not.

Let's take Pro Ad for example, they now have over twice the light they had last month but the lighting portion of the energy bill will be over 25% less. It doesn't sound possible but I assure you that it is.

Had they not done the upgrade on their building they would still be as dark as a tomb and they would pay 25% more for it. We have seen companies have over 65% savings. Don't wait, give us a call today and get on your way to better light with great savings!!!
